

MAC *and* ADAM

# HELLO!

THANK YOU FOR TAKING THE  
TIME TO READ OUR PROFILE  
AND FOR CONSIDERING US.

We know that this may be an incredibly difficult and emotional time, and we can only begin to imagine the feelings you are experiencing. While this book can't fully capture who we are, we hope it offers a glimpse into the loving home we will provide for your child—and the deep respect and support we offer to you throughout this journey.

*Regardless of your choice, we genuinely wish the best for you and appreciate your consideration.*

ALL OUR LOVE,  
MAC *and* ADAM

# our STORY

WE MET IN VETERINARY SCHOOL  
TWELVE YEARS AGO AND HAVE BEEN  
INSEPARABLE EVER SINCE.

We both come from hardworking and loving families who have provided us with the support we needed to build a solid foundation for our own family. We are both licensed veterinarians that work for a university in Colorado. Our jobs, which we love, allow us to instill a love of learning and curiosity in young professionals and students from many different backgrounds, something we hope to share with our future children. We also love to explore the natural beauty of Colorado through biking, hiking, and skiing.

*The last 12 years have been filled with cross-country adventures, veterinary work abroad, and all the highs and lows that life brings. One of the happiest and proudest moments of our journey was welcoming our daughter into our family, and we're so excited to continue growing our family with even more love.*

## WHAT LED US TO *adoption?*

***We both have very close ties to adoption; Adam was adopted as a newborn, and Mac has three older siblings who were adopted from South Korea.***

Our diverse family backgrounds have ingrained in us the importance of strong family bonds. When we made the choice to grow our own family, we were inspired by our families' histories and agreed adoption was the best avenue to make our dreams come true.

***In 2023, we were lucky enough to adopt our daughter, Arden. Her adoption is open, and through that experience, we've come to deeply value the connection we share with her birth mom. That relationship has brought richness and perspective to our lives. We feel incredibly fortunate in our adoption journey so far and are hopeful and excited to grow our family again through adoption—offering love, stability, and lifelong connection to another child and their birth family.***

# meet MAC

*According to Adam*

Growing up and to this date, Mac has always been described by his family and friends as reliable, caring, and charismatic. He always loves to laugh and bring a smile to anyone's face. More importantly, he loves being a parent and wants to share new adventures with another little one and show them the world. Mac loves to experience new things and live life to the fullest. He hopes to share his passions with his kids and help them discover their own. Mac always wants the best for his family and will be there for them, no matter the circumstance.

## THINGS MAC LOVES:

BIKING • BOARD GAMES • HIKING  
• EXPLORING NEW PLACES WITH ADAM  
AND ARDEN • HANGING WITH FRIENDS • VIDEO  
GAMES • READING A GOOD BOOK • TRAVELING

# meet ADAM

*According to Mac*

Three words perfectly describe Adam: loving, passionate, and caring. Adam is the kind of person to make someone's day, whether it be something as small as a surprise gift to a spontaneously plan day of adventure. His passion and devotion for his work, his family and his friends is apparent each and every day. For Adam, being a parent has been a journey of a lifetime and loves making our daughter laugh. He is looking forward to continuing to grow his family and start planning new adventures with our children. Overall, Adam's passion, and love for his family has made him wonderful and caring father. I know he will always support his children, while encouraging them to strive for great things in their life.

## THINGS ADAM LOVES:

HIKING • MOVIE NIGHTS • LISTENING  
TO MUSIC • LAUGHING AND BEING SILLY  
WITH ARDEN • MOUNTAIN VACATIONS •  
VIDEO GAMES • ROAD TRIPS

# OUR LITTLE

*girl*

Our daughter Arden joined our family through adoption in 2023 and has been an absolute joy ever since.

Now almost two years old, she's full of curiosity and wonder—whether she's splashing in water, opening and closing every door she can find, or heading out on outdoor adventures with her dads.

Arden's bright spirit and love for exploring have filled our home with laughter, love, and endless energy.

**Becoming parents to Arden has been the greatest gift, and we're excited to continue growing our family and sharing that same love with another child.**

# *extended* FAMILY

Our family is both close by and scattered across the country, giving us the best of both worlds—a close-knit community nearby and the joy of fun family trips to the east coast. One of Mac's sisters and his young nephew live just 40 minutes away, so we often enjoy weekly cookouts, afternoons at the pool, and adventures to the zoo together. The rest of our family is spread along the East Coast, from North Carolina to Connecticut. We often travel to the coast to see them, spending time with our family during the holidays and for vacations. We can't wait to welcome another little one into our lives to share in these traditions, adventures, and cherished family moments.

# home sweet HOME

WE LIVE IN A CHARMING HOME IN COLORADO WITH VIEWS OF THE ROCKY MOUNTAINS.

*Mac grew up on a family farm, so following in these footsteps, we have started our own small farm here, with chickens, goats, horses, and donkeys. Most importantly, we love sharing a loving home full of family, friends, and animals with Arden and any future children!*

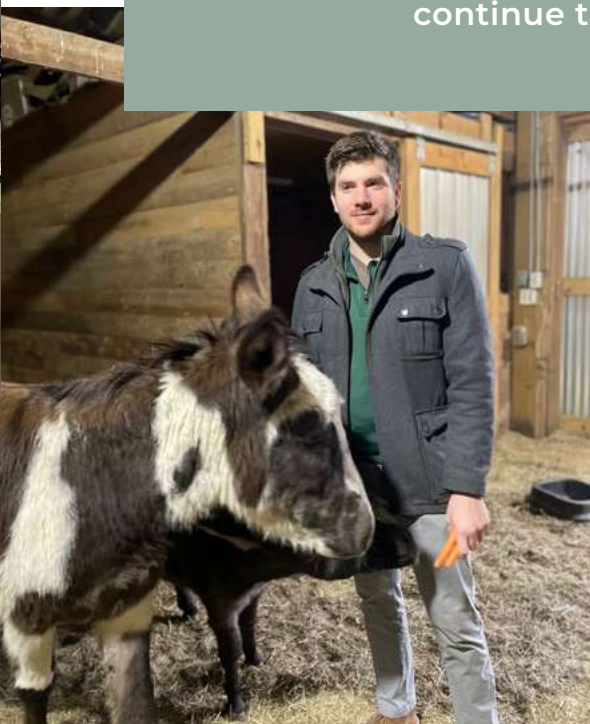

## OUR COMMUNITY

Our community has a small town feel, with numerous family focused farms and activities in the area. We are excited to grow our family, and enjoy the farm with a child, surrounded by all kinds of different animals

## *our* WORKING FARM

We are fortunate to have a small hobby farm full of animals. We genuinely love all our furry and feathered critters, from our two dogs, chickens, goats, horses, and donkeys. We are strong believers in the human-animal bond and the lessons and responsibilities animals can provide. We have loved sharing our passion for animals with Arden, teaching her everything that we have learned over the years together and getting to see the farm through her eyes. We can't wait to continue this adventure with another little one!

# we love to ADVENTURE

*We have been lucky enough, through our professional and personal travels, to visit 6 continents.*

One of our favorite things to do is to immerse ourselves into foreign cultures, and experience all that the country and people have to offer. We have continued this tradition with our Daughter, recently going to Greece to celebrate New Year's with friends. We hope to keep traveling as our family grows, because we believe that traveling can expand one's knowledge and acceptance of different cultures and people. We always look back and appreciate the traveling that we have done and know that future family vacations will help build our family bonds as we make and share new memories together.

# our FRIENDS

*We are fortunate to have a growing community of close friends in the area, whom also have their own families and young kids. As a group, we enjoy having dinners, game or movie nights, and going to breweries.*

*We have also established annual traditions including summer and winter mountain retreats, Friendsgiving, and holiday cookie competitions.*

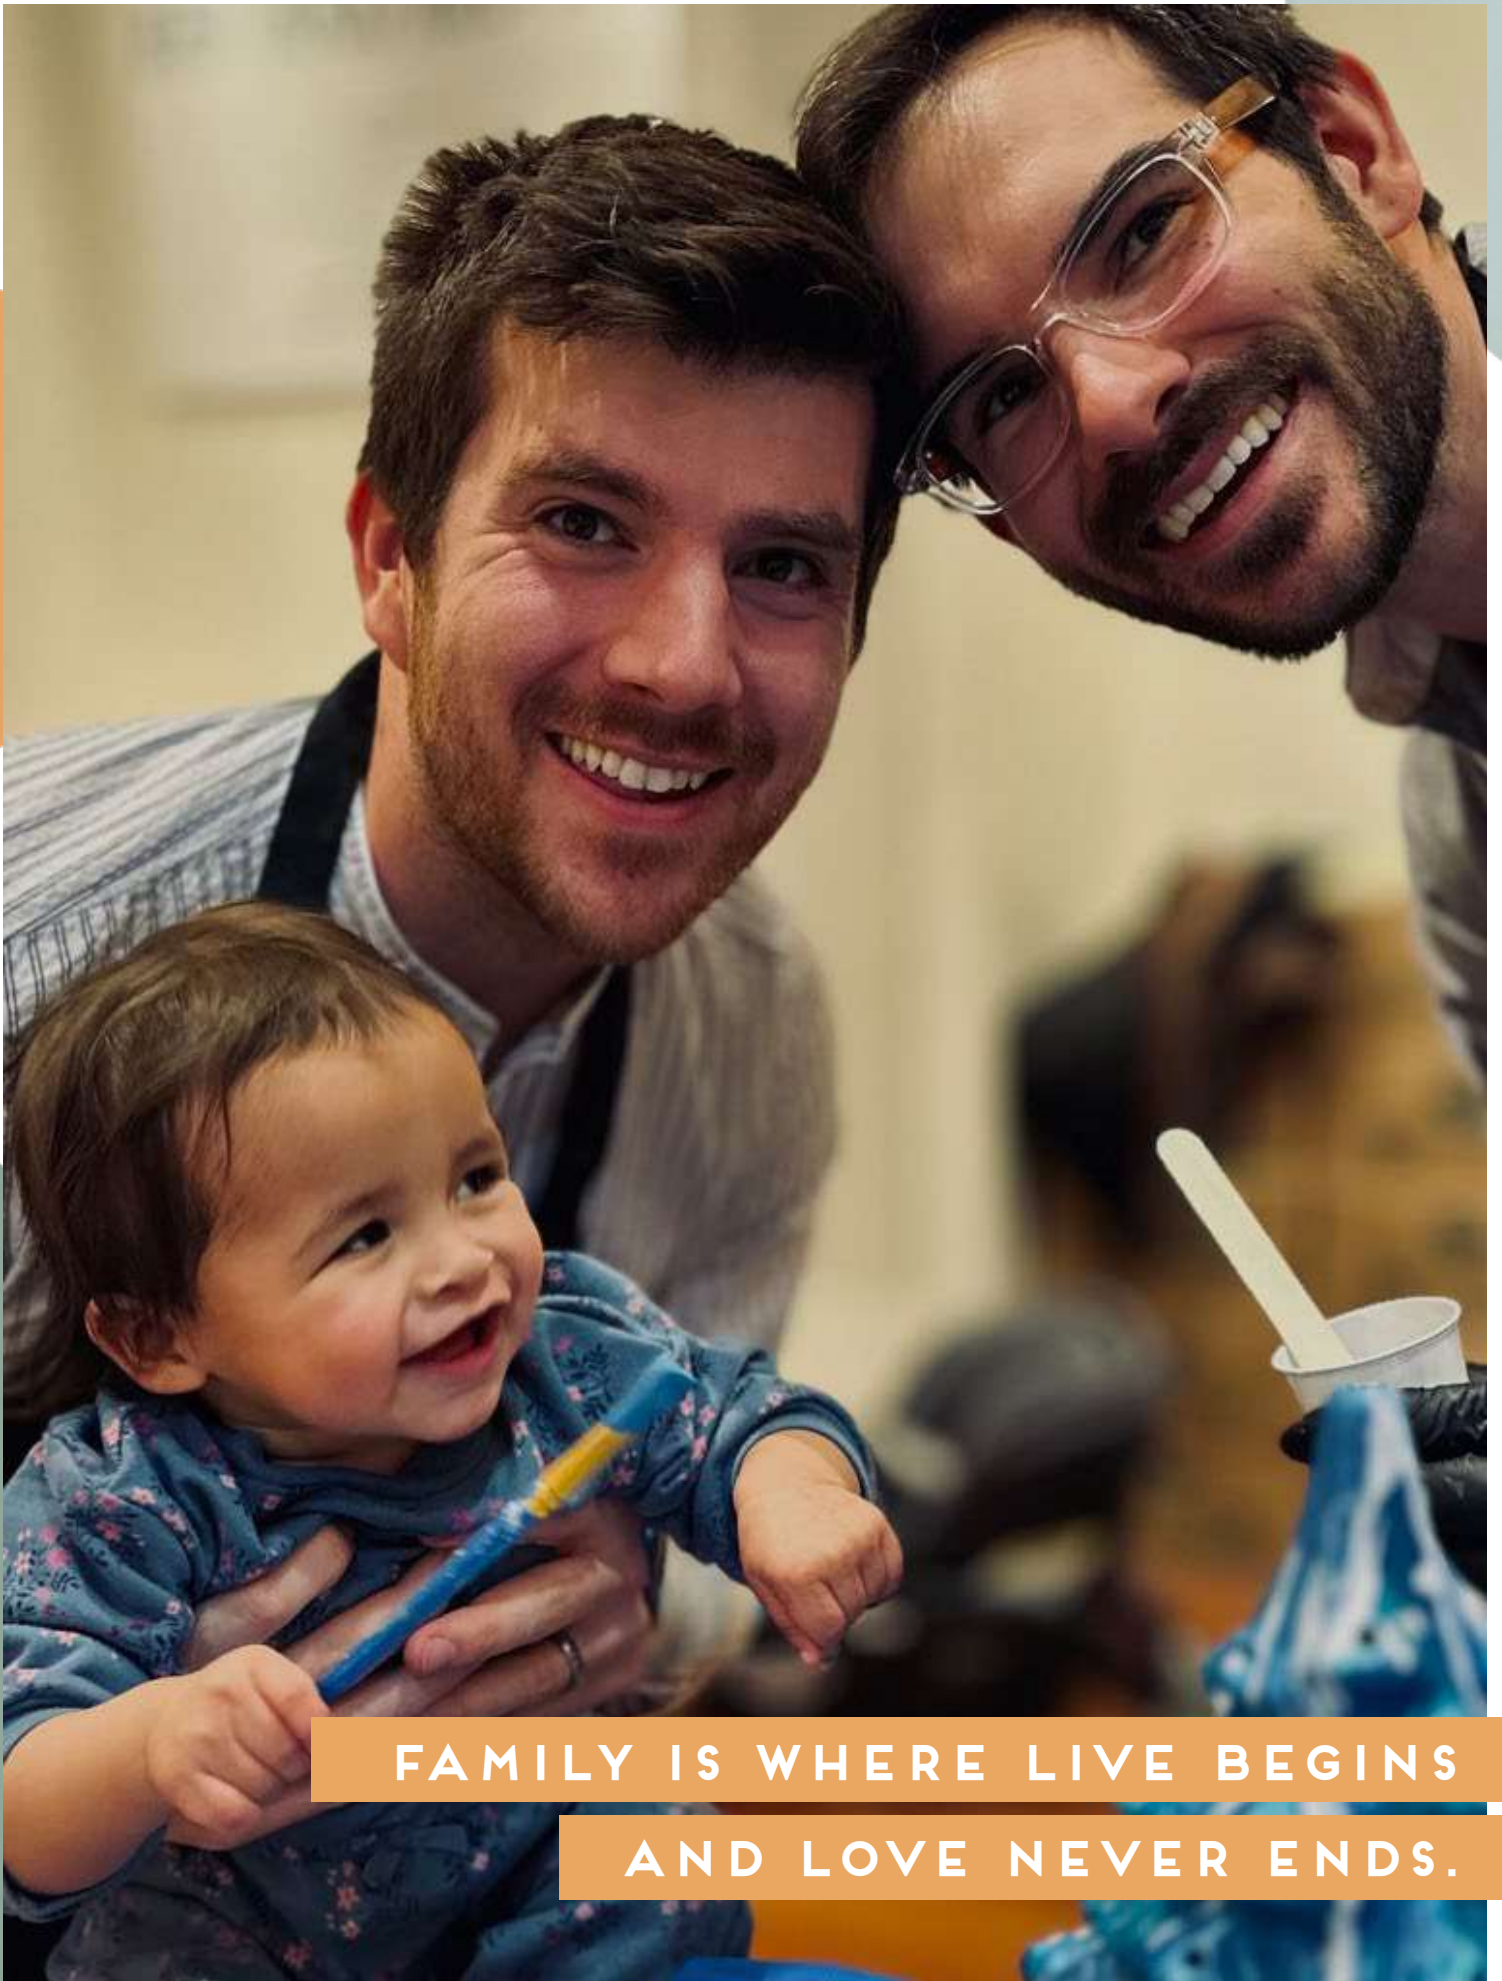

Several of our friends are going through the adoption process or have recently had children. They always remind us that it takes a village to raise a child, and we consider ourselves lucky to have them close by and willing to help us. We whole heartedly acknowledge that our friend group and family will be an invaluable support system and everyone is excited for us to join them on this journey.

WE LOVE CHRISTMAS

FAMILY IS WHERE LIFE BEGINS  
AND LOVE NEVER ENDS.
